DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Morrison.

Morrison discloses a guide wire (11) having a substantially cylindrical mandrel (12a), wherein the mandrel has one segment (12a) having a diameter not exceeding a maximal diameter. Morrison discloses providing a wire (12) of a diameter greater than the maximal diameter, and reducing the diameter of the wire to less than maximal diameter such that a mandrel (12a) is obtained whose diameter is less than the maximal diameter over substantially the entire length of the mandrel (12a). The step of reducing comprises center-less grinding. The wire after having been formed by center-less grinding has mandrel portions, wherein at least a portion of the mandrel is coated with a hydrophilic coating such as polyethylene tubing. A coil (23) is affixed to one of the mandrel sections, wherein the coil is radiopaque (i.e. platinum). See column 1, lines 66- column 2, line 9, column 3, lines 18-21, and column 4, lines 9, 10, and 19-22. See also Figures 1-3 and 7 for further clarification.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 6 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Morrison in view of Applicant's Admitted Prior Art (AAPA).

Morrison discloses all of the claimed subject matter except for the step of providing a wire comprising unwinding the wire from a spool, or straightening the wire.

AAPA at page 1 of the specification that it is known in the method of manufacturing a guide wire to select a single drawn/spooled wire and then straighten the spooled wire.

Therefore, it would have been obvious to one of ordinary skill in the art at the time of invention to select the wire of Morrison from a single drawn/spooled wire and then straighten the spooled wire, in light of the teachings of AAPA, in order to more effectively provide a uniform starting material for the core section of the guide wire.

Response to Arguments

5. Applicant's arguments, see page 3, line 8 - page 4, line 3, filed 3, with respect to the rejection(s) of claim(s) 1-7 under 35 USC 102(e) and 35 USC 103(a) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn.

However, upon further consideration, a new ground(s) of rejection is made based upon a different interpretation of the previously applied Morrison(4,619,274) reference.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
